WELCOME TO OUR 2017/18 WINE SELECTION

We have carefully chosen every wine in the portfolio to ensure they reach the highest of standards. We believe that regardless of their place on the pricing ladder, all our wines must exceed expectation in taste, branding, support and rate of sale enabling us to offer them to you knowing that they will perform brilliantly in your outlet. Many of these wines are exclusive to us too which builds confidence as you won't be competing with supermarket pricing or low cost retailers near to your venue.

We realise however that wine forms only part of the whole package of wine supply. Alongside our core company values of service and honesty, we are able to offer support in many areas. We have an online wine menu production system giving you 100% control on every aspect of the menu from font, paper size and style, artwork and pricing. Professionally printed and delivered to your door within 48 hours from sign-off also helps you get up and running with minimum fuss and maximum impact. All our representatives are trained to at least WSET Level 2 enabling advice and guidance tailored perfectly to your needs. As such we are able to offer all types of tastings from high-end Champagne dinners down to staff training sessions, and everything in between. Each year you will be invited to our Wine and Spirit Annual Tasting giving you time away from your business to appraise your wine offering and be introduced to all the latest products, support and trends. All of this along with regular reviews and brand owner visits should help us all to produce a wine strategy that keeps on delivering for you.

Wine should be fun and we aim to take out a lot of the stuffiness so we can concentrate on having a great time choosing and selling these brands and building long term relationships with all our customers and suppliers alike. We are always interested in your feedback so please let us know if we can do more for you, we are still learning too. I look forward to meeting you all in the future and I hope you can find lots to interest you in the coming pages.

Cheers!

Wine was, as with most of Europe, brought to Portugal by the Romans, but was mainly consumed locally until the 1700's when trade links began with Great Britain. This led to the world's first demarcated wine producing region, the Douro, to feed the British demand for our favourite fortified wine; Port.

We firmly believe that Portugal is the next big thing, but more for its table wines. The light whites, chunky reds and lightly sparkling rosé will add a real point of difference on a wine list, while remaining great value for money.

Spain has the largest area under vine of any country in the world. However, as many of the vines are low yielding they sit at third in the world wide volume rankings. Two thirds of this is basic table wine that never sees a bottle or is consumed locally. We have chosen a relatively big range of the other third partially due to the quality and innovation that is coming out of Spain at the moment and partially because it offers such good value.
